

Your Decision Today Will Determine How You Live Tomorrow

RCCA Suriyani/
Norzehan

It was not easy to get hold of RCCA Suriyani & Norzehan as they have hectic schedules. Wait, isn't time freedom something that the MLM business offers and the reason why people get involved in it?

"Time freedom means having the choice to choose. The BE business does give us time freedom and we are choosing to do the things we want to do, not the things we had to do back when we didn't have this privilege (time freedom)," Suriyani explained. "We choose to use our free time to fulfill our commitments – to our downlines, to our network spanning across different regions and countries.

"Finally, we have the time to do more of what we want now, to be involved in more charitable work, which includes helping more people achieve a better financial status and life!"

Norzehan chipped in: "We believe that by changing people's lives, we will be rewarded with a comfortable life and Allah's blessings."

16 years ago. BE Brave

Let's take a walk through the time tunnel and travel back 16 years.

Then, Norzehan was an assistant engineer working in a leading multi-modal public transport operator in Singapore. Meanwhile, Suriyani was a successful property and insurance agent, earning 5-figure commissions.

“Yes, our life was comfortable, fantastic actually. But we were tied up with our careers. Also, Suriyani’s job was based on individual effort and if there weren’t any sales, there wasn’t any income. As for me, I was on rotating shifts for 20 years, and time freedom was a sheer luxury,” Norzehan shared.

Yearning for time freedom, a stable and passive income, and also more financial power to meet their lifestyle, especially going for overseas holiday, without burning their pocket, the couple decided to take the leap into the MLM industry.

16 years later. BE Amazed

After 16 years in the MLM industry, the couple is even more convinced that success is inevitable, provided you have the right platform and a transparent system.

“MLM is the business of the 21st century. Of course, the journey in the MLM industry is not all roses without their thorns. There will be times when people will judge you for your actions and decisions. Criticisms, negative comments, doubts – they are normal. But just keep going. Ignore the negativities and have faith in your decision because in the end, this is what you want, not what people want. You are the one who will reap what you sow, not anyone else,” Norzehan urged.

“Your decision today will determine how you live tomorrow.”

Suriyani chimed, “The BE business is about building people to achieve a healthy lifestyle and freedom that regular people don’t have. BE is amazing because we get to help people and witness how they change their lives, improve their incomes and lead more meaningful lives. A great career gives you a sense of achievement – but BE gives you a sense of fulfilment that no words can describe. The joy of being able to help people is simply wonderful.”

The way of life

For the past two years, the couple’s core belief has been “Beyond inspiring minds, touching lives for eternity.”

“We chose the BE opportunity because we share their vision and mission. We believe BE is a way of life, not just any career or business,” the power couple concluded.
